LUIS MADRIGAL LOBO

HEAD OF ENGINEERING | ENGINEERING EXECUTIVE | AI TRANSFORMATION & BIG DATA | GLOBAL TECHNICAL OPERATIONS

Engineering Director with 20+ years of experience transforming software organizations across Pharma, Fintech, and Tech. I specialize in bridging the gap between technical roadmaps and business growth, turning engineering into a primary driver of ROI and scalability.

Currently completing a Master's in Big Data & Business Analytics, I focus on leading global organizations (75+ headcount) through data-driven leadership and the strategic implementation of AI Agents within the SDLC.

Core Impact:
- Global Scale: Led distributed teams across LATAM, EMEA, and APAC, executing high-stakes migrations in Azure, Salesforce, and Veeva ecosystems.
- AI & Efficiency: Spearheaded automation workflows that reduced defect rates by 25% and increased release velocity by 20%.
- Strategic FinOps: Proven track record in cloud infrastructure optimization and budget management for large-scale enterprise delivery.

I am passionate about building cultures of high performance and continuous innovation.

PROFESSIONAL EXPERIENCE

Engineering Director – Pharma Industry | Publicis Groupe, Costa Rica | 2022 – Present

- **Global Scalability:** Lead and empower a cross-functional organization of **60+ professionals** across LATAM, Europe, and India, fostering a culture of technical excellence.
- **AI Implementation:** Led AI-driven re-invention of the SDLC, implementing AI Agents that reduced manual overhead and increased release velocity by 20%.
- **Strategic Migration:** Architected a Global Capability Center (GCC) strategy, orchestrating the migration of 80% of operations to India to enhance global delivery efficiency.
- **Operational Excellence:** Defined architectural standards and engineering KPIs, resulting in **15% faster development cycles** and improved risk mitigation.
- **Stakeholder Management:** Act as a long-term trusted advisor for global C-level stakeholders, aligning complex technology strategies with stringent Life Sciences regulatory requirements.
- **Talent Strategy:** Implemented capability-building initiatives that strengthened technical expertise and improved team retention by **20%**.

Chief Software Architect | Tabella, Czech Republic | 2016 – 2022

- Led the design of robust financial processing software, directing cross-functional teams in C#, MSSQL, React.js, and Node.js.
- Ensured 100% alignment of technical roadmaps with business scope and quality requirements.

Project Manager & Software Architect | Accenture, Costa Rica | 2013 – 2016

- Managed international team **of 20+ engineers** across back-end, front-end, QA, and release functions.
- Oversaw resource allocation, risk management, and stakeholder communication, ensuring **100% client satisfaction** scores on key accounts.
- Facilitated high-level strategy workshops and content creation for C-Level discussions during international engagements in Tokyo, Japan.

EARLY CAREER (Engineering Foundations) | 2000 – 2013

- **Team Lead & Full Stack Developer (Net Surf Media / Alanvan Azul):** Led development of financial and sports betting platforms with 99.9% uptime. Improved processing speeds and database efficiency by up to 40%.

- **Full Stack Developer (BLR Caribbean Tech):** Developed .NET-based solutions and optimized SQL databases, increasing query performance by 35%.

PROFILE

Heredia, Costa Rica

CORE COMPETENCIES

- **People & Culture Leadership:** Global Technical Leadership, High-Performance Team Motivation, Talent Development (20% improvement in retention), and Mentorship.
- **Strategic Communication:** Cross-functional Communication, Stakeholder Management, and Technical-to-Business Translation.
- **Engineering Strategy:** Technical Strategy & Architecture, KPI Design & Performance Tracking, Budgeting & Capacity Planning, and Risk Mitigation.
- **Technical Expertise:** Cloud-Native & Enterprise SaaS Architecture, CI/CD Pipelines, Microservices, and SDLC Optimization.
- **Agile Transformation:** Enterprise Agile Frameworks, Lean Governance, and Agile Operating Model Design.

EDUCATION & CERTIFICATIONS

- **Master's in Big Data & Business Analytics:** Universidad CESUMA (Expected Completion: August 2026).
- **Executive Diploma in AI & Business Ethics:** Universidad CEUPE (Expected Completion: Late 2025/2026).
- **Licenciatura & Bachelor's in Computer Systems Engineering:** U. Fidélitas / U. Latina.
- **Certified ScrumMaster (CSM) –** Scrum Alliance (ID 001311714): Expertise in implementing Agile Operating Models and Product-oriented delivery structures for global organizations.
